Dear Editor

I would like to inquire about the process of publishing articles in your journal. How much is the publication fee if my article is accepted in your journal?. I hope this information because I am interested in submitting articles to your journal. I am waiting for further information from you regarding this question.

Regards

Ahmad Azmy

I would like to thank you for accepting this article in your journal. Before I send this license letter. There are several questions as follows:

1. Will this article be included on the Scopus and Web of Science websites as part of a publication in your journal? Because this article is used as a performance plan for next year and can be checked by the campus on both indexes. Scopus and Web of Science are indexes that are calculated as measurements of the quality of journal publications.

2. After I send this license letter to you? Is there a proofreading process or something like that to ensure the quality of the grammar in this article?

I'm waiting for confirmation on these two questions.

Regards

Ahmad Azmy

Dear Ahmad Azmy,

Till now, there was no problem with the Scopus index. We will send all the issues and articles to Scopus.

As regarding Scopus coverage years:from 2018 to 2023 it is because there is no available issue for 2024 for our journal. The first issue for this year will be available in May 2024.

Please find enclosed the Source titles list. Studies in Business and Economics journal is active.
